THE VINEYARDS *of* NICKEL & NICKEL

CABERNET SAUVIGNON

C.C. RANCH RUTHERFORD NAPA VALLEY

C.C. Ranch sits along the slope of a knoll west of the Silverado Trail. The vineyard is planted on well-drained, gravelly loam soil and the climate is ideal for the variety due to the warm summer temperatures that mature tannins and ripen fruit.

QUICKSILVER VINEYARD RUTHERFORD NAPA VALLEY

The Quicksilver Vineyard lies on the western side of Rutherford, in the acclaimed winegrowing area along Bella Oaks Lane. These older vines are planted on well-drained loam with wider spacing and a divided canopy, which provide great exposure to the fruit.

BRANDING IRON VINEYARD OAKVILLE NAPA VALLEY

In the western part of Oakville close to the base of the Mayacamas, the vineyard is comprised of well-drained clay loam, and the vines are vertically trellised to maximize sunlight and open the canopy.

JOHN C. SULLENGER VINEYARD® OAKVILLE NAPA VALLEY

In the heart of Oakville and named for John C. Sullenger, who settled the farmstead in the 1880s, the vineyard's clay loam soil are planted exclusively to Cabernet Sauvignon, with 2 rootstocks and a few different clones which each add a unique element to the resulting wine.

STATE RANCH YOUNTVILLE NAPA VALLEY

The 23-acre State Ranch is located northeast of the town of Yountville. The rocky, loam soil has excellent drainage and grows Cabernet Sauvignon vines and clusters that are moderate in size.

VACA VISTA VINEYARD OAK KNOLL DISTRICT NAPA VALLEY

Sitting upon the valley floor in the Oak Knoll District, the vineyard's well-drained, gravelly soils and moderate climate provide even ripening, resulting in this structured and polished Cabernet Sauvignon.

BEAR TRACK VINEYARD NAPA VALLEY

Planted in three terraced blocks on the eastern hillsides of Napa Valley, just outside of the Howell Mountain AVA, this vineyard's cool climate and iron-rich, volcanic ash soils result in small, tight clusters of concentrated fruit. Ample hang time before harvest yields a Cabernet Sauvignon with intense, dark fruit flavors and integrated tannins.

FOG BREAK VINEYARD ATLAS PEAK NAPA VALLEY

Sitting just above the fog line, sheltered from the valley breezes, this distinct vineyard retains the heat from the early morning sun throughout the day and the additional warmth, paired with the vineyard's shallow iron-rich soils, combine to create a distinctive flavor profile that is concentrated, complex and classically structured.

CHARDONNAY

TRUCHARD VINEYARD CARNEROS NAPA VALLEY

Lying in the heart of Carneros, Truchard Vineyard is composed of volcanic ash and rock, and is prized for its rolling hills, sun exposure and cool, breezy conditions that allow long, even ripening.
